- To activate sort, click on column header
- On click, sorting arrow appears on the left of the column header
- If the user clicks on a column that is already sorted, reverse the sort order and rotate the sort icon.
- On first click, column is sorted in alphabetical order, A-Z
- On second click, column is sorted in alphabetical order, Z-A
- Content remains sorted till page reload or sorting being initiated in another column
- If table search is triggered, table data reloads, sorting is removed
